Marine transmissions are the unsung heroes of the boating world. A marine transmission has three functions: to engage and disengage the engine from the propellers, to provide reverse rotation and to set the ratio between the engine and propeller revolutions per minute (RPM). At Discount Inboard Marine, we carry a wide variety of marine transmissions and marine transmission parts from the popular brands you trust, including Borg Warner and PCM. If you need product-specific information or technical assistance, reach out — we're happy to help. ATK Core Return ProcessJEGS and ATK appreciate your business and want to ensure that your core return is as smooth as possible.Please CLICK HERE for ATK Core Return ProcessNOTE:Core return can be any 1971-2003 Small Block Chrysler 360ci engineEngine SpecificationsThis JEGS crate engine has a stock idle, produces a great vacuum, and provides plenty of power for cruising streets.Horsepower: 310 hpTorque: 400 ft.-lbs.Block Information:Seasoned OE 2 Magnum roller block 1993-2001Bore/Stroke: 4.060 in, x 3.580 in.Displacement: 360 ciRotating Assembly:Crankshaft: OE castBalance: External front, internal rearRods: OE 6.123 in.Compression Ratio: 9.1:1Pistons: HypereutecticRings: MolyCamshaft Specs:Camshaft: Hydraulic rollerAdvertised Cam Duration: 251 Intake; 271 ExhaustCam Duration @ .050 in.: 188 Intake; 194 ExhaustCam Lift: .411 in. Intake; .418 in ExhaustIntake Centerline: 116 DegreesTiming Chain: HD single rollerIncludes fuel pump eccentric to run a mechanical fuel pumpCylinder Head Information:Cylinder Heads: OE Magnum cast ironCombustion Chamber: 65 ccValve Size: 1.780 in. Intake / 1.500 in. ExhaustRocker Arms: Steel 1.6 pedestal rockersOil Pan Information:Oil Pan: OE front sump 5 qt.Oil Pump: Melling standard volumeNote: Valve Covers Required (Not included)Engine Break-In ProcedureUse break-in oil or conventional (non-synthetic) 10w30 oil with zinc additive for the first 500 miles of operation. Do not drive for long periods at any single speed, always vary your speed. Do not tow a trailer or put other heavy loads on the vehicle. It is best to avoid long periods of idling during this period. Check the engine oil and coolant levels daily. Engines with flat tappet hydraulic cams only - Run the engine between 2,000 and 2,500 RPM's, with no-load on the engine for the first 30 minutes. Let the engine cool down completely and repeat the process 2-3 more times. Do not idle the engine for an extended period at this time, this is critical for breaking in the camshaft.At 500 Miles change the engine oil and filter using conventional (non-synthetic) oil with a zinc additive. Check fuel and ignition settings, adjust valves (where applicable). Drive the next 500 miles normally, without high RPM's (below 5000 RPM), hard use, or extended periods of high loading or long periods of idling.Change the oil and oil filter again at 1,000 miles. Continue using conventional (non-synthetic) oils and zinc additive, until about 4,000 miles. At that point, you may run a quality 10w30 synthetic oil if you choose. Using an oil with zinc or a zinc additive for the life of your engine is recommended. Page 2 WARNING: Motor vehicles contain fuel, oils and fluids, battery posts, terminals and related accessories which contain lead and lead compounds and other chemicals known to the State of California to cause cancer, birth defects and other reproductive harm. These chemicals are found in vehicles, vehicle parts and accessories, both new and as replacements. When being serviced, these vehicles generate used oil, waste fluids, grease, fumes and particulates, all known to the State of California to cause cancer, birth defects, and reproductive harm. Tools: WARNING: Some dust created by power sanding, sawing, grinding, drilling, and other construction activities contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. Some examples of these chemicals are: lead from lead-based paints, crystalline silica from bricks and cement and other masonry products, and arsenic and chromium from chemically treated lumber. Your risk from exposure to these chemicals varies, depending on how often you do this type of work. To reduce your exposure, work in a well-ventilated area and with approved safety equipment, such as dust masks that are specially designed to filter out microscopic particles. Electrical Cords WARNING: The wires of these products contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. Wash hands after handling. These L&T Switchgear Price Lists contains: Switching and Control Products – Power Contactors, Control Relays, its accessories and spares like Spare Contact Kit and Spare Coils. Motor Protection Solutions – Thermal Overload Relays, Electronic Motor Protection Relays, Intelligent Motor Management Relays and Motor Protection Circuit Breaker (Rotary and Rocker type). Starters – Motor Starters like DOL Starters, Star Delta Starters, Timers and Spares for Starters Powergear Products – Enclosed Automatic Transfer Switch, On Load Changeover Switch – Disconnectors (Manual and Motorised), Fuse Mounting Kits, Switch Disconnector Fuse Units, Cylindrical and DIN HRC Fuses, DU and DY series MCCBs, Enclosures for MCCBs, Sub & Main Distribution Boards and Air Circuit Breakers (Omega and C-Power Series). Energy Management Solutions – Power Quality Solutions like Capacitors & APFC Controllers, Protection Relays like 3 Phase & 1 Phase Overcurrent and Lockout Relays, Metering Devices like 3 Phase Electric kWh Sub Meter & Trivector Meter, Energy Management Solutions like Energy Meters & Multifunction Meters, and Prepaid and Smart Metering Solutions. Automation Solutions – AC Drives, Digital Soft Starters, Programmable Logic Controllers (PLC) & Human Machine Interference (HMI) & Servo. Circuit Protection Devices – Exora MCBs, Exora RCCBs, Exora Isolator Switches, Surge Protection Devices, RCBOs, Single Phase Automatic Changeover with Current Limiters (ACCLs), Three Phase ACCLs, Changeover Switches, Exora Distribution Boards like SPN DB, TPN DB, VTPN DB, and Plug & Socket DB. These L&T Switchgear Price List contains: Circuit Protection Devices – Tripper MCBs, Tripper RCCBs, Tripper Isolator Switches, Tripper ACCLs, Tripper Automatic and Modular Changeover Switches, Tripper RCBO, Tripbox Plus Distribution Boards like SPN DBs, TPN DBs, VTPN DBs, Enclosures, Plug & Socket DBs. Modular Switchboard and Wiring Accessories – Englaze Modular Switchboard Series, Entice Modular Switchboard Series, enGem Modular Switchboard Series, Oris Modular Switchboard Series, PVC Surface & Metal Mounting Boxes. Other Accessories – Plug Tops, Spike Guards, Extension Tops, and Door Bells.
